

**ORGANIZED TO BRING TOGETHER MEMBERS OF THE
MEDICAL PROFESSION IN MOBILE COUNTY**

First, I would like to thank everyone for a great year in 2014!

Becoming a member of the Board of Censors was my first exposure to the world of organized medicine. It has been a pleasure to serve our members and our greater community. Involvement at this level has been one of the more rewarding experiences of my life. From staffing a Katrina Relief clinic to campaigning for the anti-smoking legislation in the City of Mobile to becoming aware of political issues affecting the practice of medicine, it has all been personally and professionally enlightening and satisfying.

2014 was a year of changes for the Medical Society. Our staff at the Medical Society has stepped up to the plate and overcome personal and professional hardships to bring you, our members, the very best experience possible. Thank you Wendy, Lori, and Mark.

New and exciting changes were implemented in 2014 under the direction of the Board of Censors.

First and foremost, a new relationship with the Medical Museum of Mobile was forged. This is very exciting, as we realize that we cannot know the future, or the present, without knowing the past. The Museum was brought under the aegis of the Society, similar to that of Camp Rap-A-Hope. The immediate Past-President of the Medical Society will serve a two-year term on the Museum Board, establishing a set rotation. Dr. Russell will serve a one-year term.

In response to our member surveys, we tried different venues and programs for our quarterly meetings. These were met with praise, as well as with constructive criticism – all of which are welcome. Plated dinners at the Country Club were well received and we plan to continue serving plated dinners in the future. The combined Mobile-Baldwin Summer Social was also well received and attended.

The Winter Social was held in the Alabama Cruise Terminal, featuring a panoramic view of the waterfront. An art show highlighting physicians and local artists was delightful; the artists expressed thanks and gratitude to the Society and Members for inclusion in our event. A silent charity auction was featured. Over \$2600 was raised for the three organizations under the auspices of the Society: Camp Rap-A-Hope, the Medical Museum of Mobile and the Alliance.

Mary Shaffer Wells, M.D.
2014 President

Feedback was generally positive and the majority enjoyed the collegiality, as well as the art and artists. Many thanks to all of you who contributed to this inaugural event! Hopefully, we will continue to support our organizations with the Winter Social. I had fun and I hope you did too!

The Mission Statement of the Medical Society of Mobile County speaks specifically to fostering collegiality. Our goal is to meet the needs of our members in every stage of medicine and life. We want you to be involved from medical student, active practice, and retirement – even until the reading of the Death Resolution.

The Medical Student Section is, again, becoming a vibrant and attractive organization for students. The last several Quarterly Meetings have seen greater numbers of medical students in attendance. Feedback from students has been positive. The Medical students “closed” the Winter Social and reported a “good time”!

The Young Physicians’ Section (YPS) has become a popular event. There will be three dinner meetings at the O.K. Bicycle Shop in 2015. These dinners are completely sponsored by members of our Circle of Friends. The YPS is a fun and happening event to socialize with your peers.

CONTINUED ON PAGE 2

CONTINUED FROM PAGE 1:

The "RODEO", Retired Old Doctors Eating Out, is a well-attended social group of about 35–50 RODEOs who enjoy gathering together and dining on a regular basis.

Each of us plans to reach and enter the retirement phase of life. This demographic is growing: greater numbers of physicians are planning early retirement and Baby Boomer docs are reaching retirement age at unprecedented numbers. As we all know, retirement can either be a remarkable experience or a devastating emotional letdown after years of productive contribution to society. Sadly, each of us is aware of a colleague who has taken his or her own life after retirement. One of the goals of the Society is striving to meet the needs of our retired members, through outreach and support. Retired physicians are well represented on your Board of Censors.

It is the goal of the Society to reach out and meet the needs of all our members. As a direct result of your comments and observations, we, the Board of Censors, plan to continue making the Medical Society relevant to our members.

I would challenge each of you to become involved in your Society, any level of involvement will be personally rewarding. There is a place in your Medical Society for you, whether it is attending and socializing at Quarterly Meetings, serving on a committee, becoming involved in MASA via District Caucus, joining specialty sections or serving on the Board of Censors or one of our affiliate Boards. Your Medical Society wants you to be involved!

Feel free to contact any Board Member or the office for concerns, suggestions and ways that you can become involved.

The Medical Society would like to thank those who donated to help make our Holiday Social a success:

WE ARE CAMP RAP-A-HOPE

CAMP RAP-A-HOPE, A CAMP FOR CHILDREN WITH CANCER, WAS CREATED IN 1985 BY THE MEDICAL SOCIETY AND MEDICAL ALLIANCE OF MOBILE COUNTY.

2015 is our year to celebrate 30 years of free fun for kids with cancer. What an awesome vision, heart, and success for the founders of Camp Rap-A-Hope.

In 1986 we hosted 12 campers and in 2014 we hosted 85 children. Cancer diagnoses have not slowed down these past 30 years and neither has serving these kids and their families through Camp Rap-A-Hope.

Marian Pfeiffer and Betty Stone co-chaired Camp Rap-A-Hope during our first camping season making the vision from Dr. Bill Bridges a reality. Their dedication and heart for Rap-A-Hope exemplifies the true essence of the Spirit of Camp Rap-A-Hope that lives on in the lives of all who are part of the Camp Rap-A-Hope family even today:

Spirit of Courage: To meet the unexpected things in life and face the fearful times

Spirit of Endurance: The inner strength which comes from the heart and mind to meet the many physical trials

Spirit of Acceptance: To accept things in life you cannot change – the strength to change what you can and the wisdom to know the difference

Spirit of Laughter: To fill your soul with joy as laughter heals the wounded soul

Spirit of Faith: Believe in yourself - faith can move mountains and give you peace in your journey through life

Spirit of Hope: Imagination and vision to see that you need not despair – never give up – lift your face to the heavens to see the possibilities and not the limitations in life

Marian and Betty are to be commended for their belief in and willingness to bring the vision of Dr. Bridges to life. They created a magical organization that has provided life changing memories for Campers and their families for 30 years.

Board of Directors 1985:

Betty Stone
Marian Pfeiffer
Donna Lushington
Nelda Schultz
Marcia Conrad
Jenny Rich
Elizabeth Green

-Betty Stone and Marian Pfeiffer

From Dr. Bridges, Marian Pfeiffer, Betty Stone in 1986 to the Current Board of Directors and every Board Member, Volunteer, Staff member, Counselor, and donor – THANK YOU. Thank you for the countless hours of healing fun for our special Campers and their families.

"Most dream of giving during their lifetime a gift to one's fellow man that is totally unselfish, unique, vitally needed and precious, but unavailable at any cost. Needless to say, this goal becomes a reality to a very few.

During Camp Rap-A-Hope, I had the wonderful fortune to witness such an event received by children, many of which have lost their joy, friends, and any hope for the future. This experience, I shall treasure for the rest of my life."

Quote by Dr. Bill Bridges, Past President, Medical Society of Mobile County, and Camp Rap-A-Hope concept originator in 1985.

"Having been diagnosed at 10 weeks old with a cancer called Neuroblastoma, I am eligible to attend Camp Rap-A-Hope, camp for children who have now or who have SURVIVED a cancer diagnosis.

What makes Camp Rap-A-Hope special?

Water Activities
Horseback and painting ponies
Friends
Fun Times
Memories
Appreciation of LIFE
And a wish for a cure to the disease that has claimed the life of friends

Camp Rap-A-Hope answered my question...

Why did I have cancer?

So I can attend Camp as a SURVIVOR encouraging others who are in the midst of their BATTLE..."

Abbie Eubanks, 8 year Camp Rap-A-Hope Camper 2014 Camp graduate.

"Camp Rap-A-Hope is like being part of a large family that is harmonious, always loving, caring and helpful. The older I get I start to see that my family at Camp Rap-A-Hope is what God envisions families to act like."

Chase Jenkins, 16 Camp Rap-A-Hope Camper

AMSMC Winter Article

The Alliance to the Medical Society of Mobile County has been moving full speed ahead. In August, we received a \$1,000.00 grant from AMASA for our "House Calls" community outreach efforts. Our first Melanoma Awareness lecture took place November 19, 2014 with Dr. Kathryn Dempsey as our featured speaker. We provided 20 free heart healthy lunches, and had the highest public attendance thus far. We will begin a three part lecture series with featured speaker, Dr. Amy Morris. We will target local high schools in an attempt to educate our youth on Melanoma Awareness. The event schedule will be advertised in our local Lagniappe Publication, and dates are: Friday, February 6, 2015 2:00PM-3:00PM at St. Paul's High School-free skin cancer screening for faculty to follow; Wednesday, March 18, 2015 6:00PM-7:00PM at St. Luke's High School-this lecture is open to the public-free faculty skin cancer screening to follow. The Alliance will be assisting Dr. Morris and her staff as they host a "free to the public" skin cancer screening on Friday, May 1, 2015 8:00AM-1:00PM. (The month of May is Melanoma Awareness MONTH.)

This year our community charitable focus will be towards Penelope House and Victory Health Partners. Our featured national charity this year is the American Melanoma Foundation. The Alliance joyfully continues to sponsor Camp Rap-A-Hope, which will be celebrating its 30th year this June 2015. We held an Inaugural Capital Campaign this year, raising \$3,600.00 to date. Our board previously voted to use this money for our local community charities. Although we did not reach our goal of 100% participation, I'm happy with the outcome. Thankfully led by member Sheila Gray, we raised \$2,009.00 for our annual Garland and Wreath Sale, and thankfully led by member Beth Hooks, we raised approximately \$11,000.00 with our Annual Camp Rap-A-Hope Holiday Honorary Christmas Cards. I'd say with a total of \$15,609.00, we are having a successful year! This year, we have also created the Platinum Club. This group consists of active and inactive Alliance members who wish to reconnect, relax, and rejuvenate. Members of this club who wish to receive a special Platinum Club Membership card must be a current dues paying member aged 55 years or better. The incentive to having this level of club membership entitles a cardholder to a free lunch at fall luncheon, as well as special surprises planned throughout the year. With the advent of this club, we have increased membership and dues renewals, thereby increasing revenue.

Our Christmas luncheon was held at Pour Baby Wine Tasting Bar and Bistro on Tuesday, December 9th at 10AM. At this event, we hosted an outerwear drive for Penelope House. Members brought gently used coats, gloves, hats, etc. Our Platinum Club members arrived in full force and enjoyed having a tiara placed on their crown upon arrival. Attendees enjoyed one of three menu items; Pan Seared Gulf Fish with Sweet Chili Grits served with sautéed kale, goat cheese cream and pickled gremolata, Roasted Herb Marinated Chicken Breast served with sweet potato gratin and sage beurre blanc, or Spinach and Manchego Quiche served with marinated lump crab and arugula salad. Our meal ended with scrumptious sweet custard topped with a graham cracker and a hint of kosher salt. Many thanks to Programming Vice Presidents Karen Alford and Brandy Revels for organizing.

Two deserving nursing students in the University of South Alabama's College of Nursing have received \$2,500.00 each from the Alliance to the Medical Society of Mobile County. A committee of Mobile Chapter Alliance members evaluated 18 applications for the Lettie Daffin Perdue Scholarship which is awarded annually to students pursuing a career in nursing at a Mobile County

nursing school. Second year student Chalyn Raine Frost has a 3.93 GPA, volunteers at the Ronald McDonald House and USA's NICU and wants to be a nurse practitioner. Corey B. Sigler has a 3.46 GPA, is president of the Student Nurses' Association and plans to specialize in intensive care nursing. Chalyn and Corey will be special guests at the Mobile Alliance's spring luncheon. Many thanks to Susan Nelson-Pickard, APR, Lettie Daffin Perdue Scholarship Chair, for her dedication - and for submitting this update!

We partnered with the Medical Society of Mobile County to host a party for new physicians and their spouses. We decided on a Super Bowl party, that was held on February 1, 2015, at the home of Dr. and Mrs. Mike O'Dowd. We welcomed an incredible group of doctors and their spouses. Our annual fundraising event "Red, White and Blue" party is scheduled for Thursday, February 26, and we are in need of a residence to host. If you are interested in volunteering your home, please contact Brandy Revels at bprevels@comcast.net

The Medical Society of Mobile County has done a fantastic job hosting a summer social and holiday social. Many thanks to the MSMC for helping raise money to benefit the Alliance at the holiday social! It was at the summer social where I was approached by a member of the Baldwin County Alliance and her husband. They expressed a desire to have the Mobile Alliance help them get moving and shaking. After a lunch meeting, we determined where they were and where they wanted to be. We have identified a need for events to include doctors and their spouses from both sides of the bay. Many physicians have offices on both sides of the bay, and they would like to have social events with both Alliances. For this reason, we have extended an invitation to the Baldwin County Alliance to attend our R, W and B event. The Baldwin County Alliance has in turn, invited us to attend a party for fun and fellowship. Location and time TBA. In the future, if the interest is high, we would like to plan a Battle of the Bay kickball tournament for the two Alliances. Now that would be fun!

AMASA and Madison County have been chosen to host the AMAA Southern Regional meeting event on January 22-25, 2015 in Huntsville, AL. Alabama has not held this event since 2008. The meeting starts with a welcome reception on Thursday night and morning meetings on Friday and Saturday. During the afternoons there will be optional tours of Hudson Alpha Institute for Biotechnology, Marshall Space Flight Center and the Space and Rocket Center. Register and reserve your hotel and tours on the AMASA website or go to the Madison County Alliance website. AMASA President, Karen Alford, hopes to see you all there!

Our executive board is looking forward to next year's outreach possibilities. We have been discussing sponsoring an Alliance Therapy Dog to visit local hospitals. We are currently researching certification requirements and potential use for such a dog in Mobile. We have plenty of members who are interested in certifying their own dogs, which will make it easier for scheduling purposes. If you or someone you know is interested in this endeavor, please contact Ashleigh O'Dowd at ashleigh.odowd@yahoo.com.

Lgabriel@gulfcoasttreatmentcenter.com

Part-time Physician needed: Gulf Coast Treatment Center is an opiate addiction treatment facility which utilizes a combination of methadone, as well as individual and group counseling to help patients reach their maximum potential in recovery. Established in 1995, GCTC has maintained a proud reputation of working in collaboration with the entire treatment team; physicians, nurses, counselors and patients to find recovery. GCTC would like to contract with an Alabama licensed physician to work 6-8 hours per week in conjunction with the Medical Director as part of the treatment team. The hours would be either from 6:00 a.m. until 9:00 or from 7:00-10:00 a.m. on Tuesday and Thursday with the possible addition of Wednesday if the need arises.

Contact: Linda Gabriel with questions, resume, or Curriculum Vitae at the above.

WE ARE THE MEDICAL MUSEUM

FOUNDED IN 1962 BY DR SAMUEL EICHOLD, THE MOBILE MEDICAL MUSEUM DISPLAYS 200 YEARS OF MEDICAL HISTORY.

An address from the Medical Museum:

The holiday season was a busy and exciting time for the Mobile Medical Museum. In the last quarter, we had an increase in visitation, volunteer participation, and acquisitions. The improvement in these numbers reflects an expansion of the museum's visibility within the community. It tells us that the people in Mobile are excited to bring their visiting friends and family to see the museum, that they want to be a part of our organization, and that they trust us to preserve their precious artifacts for future generations. We aim to continue this trend in the new year and plan to work harder than ever towards our mission of *Preservation and Education*.

As stewards of our community's cultural heritage, the museum has a responsibility to ensure the highest level of preservation of the objects its donors entrust to our care. To fulfill this responsibility, the museum has recently begun working on a massive update and re-inventory of our collection. The goal for this project is to ensure proper preservation of our collection, as well as improve its accessibility to researchers and the public. The objectives set out to reach this goal include, updating our electronic museum database, ensuring each object is stored in a protected environment, and making our archival and object collection more readily available via our website and for visiting researchers.

Museums were founded as educational institutions. Although the role of museums evolved over time to include civic and preservation responsibilities, education is still a core function of the museum and an integral part of our museum's mission. The Mobile Medical Museum had a successful 2014 Fall/Winter Lecture Series. Captivating presenters discussed a variety of topics including the impact of illness on world leaders, traditional Creek Indian medicine, and the history of medicine in Mobile. For 2015, the museum is offering a quarterly lecture series which will kick off in February with a presentation by Dr. Jeffrey Jones exploring the changing view of epilepsy in literature. Additionally, we are improving our educational programming for high school students.

With the start of the new year, the museum's Board of Trustees underwent several changes. Dr. Elizabeth Mancini's term as President expired and 1st Vice-President Dr. Charles Rodning took over as the leader of our Board. The museum is

very grateful to Dr. Mancini for her leadership over the past two years and her many contributions to the museum. During her reign, the museum improved its impact in the community through increased visitation and the implementation of several significant programs, including the Legacy Program, Girl Scout Badge, and Lecture Series. The museum is excited to welcome Dr. Rodning as our new President. His enthusiasm and dedication to the museum, the history of medicine, and the community, is sure to inspire positive steps towards making the museum a more visible and valuable institution to Mobile.

The museum would also like to announce two new officers on our Board of Trustees, Dr. M. Shaffer Wells as 2nd Vice President and Dr. John R. Russell as Secretary. Additionally, Dr. Jack A. Di Palma has joined our Board of Advisors. We are excited to have these new board members and look forward to working together in the new year!

The museum would like to thank all those who contributed to the 2014 annual membership drive. Without the support of our community, particularly the Medical Society of Mobile County, the museum would be unable to fulfill its mission of *Preservation and Education*. One benefit of being a member is free admission year round for you and a guest. So don't let that little perk go to waste! Call today to schedule a tour. Not a member? It is not too late, contact the museum for more details.

-Raven Christopher
Executive Director

For the 4th year in a row, we have had the honor of hosting the Leadership Mobile “Healthy Mobile” seminar in January. The Medical Society co-hosts this event with the J.L. Bedsole Foundation. It is held at the University of South Alabama’s Shelby Hall. Your members are well-represented. This year physician speakers were Drs. Jack Di Palma, Adrian DiVittorio, and Bert Eichold. Thank you for always being a willing and excellent representation of medicine in Mobile. Also, we will be mailing our Membership wall posters to you soon. Be watching your mailbox!

-Wendy Bedsole
Executive Director

3 reasons more Alabama doctors than ever are choosing coverage with Medical Protective:

- **Defense lawyers** with **vast experience** and **proven competence**.
- **110+ years of commitment** to medmal.
- **Competitive rates** for AL doctors.

WE HAVE A HISTORY AND A FUTURE

-11-

CREATED IN 1841, OUR SOCIETY WAS THE FIRST ENTITY OF ORGANIZED MEDICINE IN THE STATE OF ALABAMA.

Dr. Raymond Broughton upon being sworn in as the 2015 Medical Society President:

Good evening,

It gives me great honor to be chosen to serve as president of our medical society for the 2015 year. For those of you who don't know me, I came to Mobile from UAB where I attended medical school and residency from 1980-1987. I am a graduate of the University of Alabama where I received a BS in Biology with a minor in Chemistry. In medical school, I was on a Public Health Scholarship which eventually led to me choosing Mostellar as the site I planned to pay off my obligation. I originally planned to stay two years only, but that was 27 years ago.

I am the last of twelve children and grew up in Monroeville, AL. I was uninsured until I graduated from medical school. Due to the fact that most of my career has been spent in the Public Health sector, being an uninsured minority, my views and opinions are skewed by my life experiences and may not always be the same as most of you. I grew up poor and have a very special place in my heart for the underserved and less fortunate. That's probably why I never left Mostellar. It is often frustrating and disturbing to me to see patients that I know that I could help and possibly extend their lives if they were properly insured. I appreciate the care that many of you provide – treating those uninsured patients with dignity without being properly compensated especially when you don't require unreasonable upfront fees – There is a special reward waiting for you.

Medicine is changing dramatically in both the public and private sectors. The Affordable Care Act is a complicated piece of legislation with both good and bad parts. Unfortunately, it didn't make insurance affordable to many of my patients due to the high premiums – which I presume is due to the fact that Medicaid was not expanded. Many of them would have to pay between \$400-\$800 per month which they can't afford on a fixed income or unemployment. This act is under attack and will probably be repealed in part by our current congress. For any patients who have never had Health Insurance, it is a God send to be insured by Blue Cross and Blue Shield, or United Health Care now. Then there are those of us who had insurance and experienced

increases in our premiums – justified or not. Then there are those still caught in the gap where they don't qualify for Medicaid and can't afford the premiums for affordable care. The Federally Qualified Health Centers (Mostellar and Franklin), Victory Health Partners, and the Health Department try to fill that void. Medicaid is also set to change dramatically as the RCO (Regional Care Organization) are developed. It seems that USAMC has positioned itself in the driver's seat by providing the required funds for startup. This will allow them to control the selection of 12 out of 20 board members, 3 going to AltaPointe and the expenditures of more than 450 million dollars dedicated for the health care in our region. Those challengers along with the challenges of EMR and etc. keep us all on the edge. The challenges of loss of productivity caused by using the EMR in turn takes away family time and income.

Our medical society is the oldest in the state of Alabama – providing leaders to MASA and AMA delegates. We must continue to be innovative in providing solutions and leaders for the problems we face in medicine today. Over the next year, we will, as a board, strive to provide you with programs that will intersect all sections of our society – starting with young physicians straight out of residency to the seasoned warriors reaching retirement. We request your active participation and ideas on how to make the organization more responsive to your needs.

Dr. Mary Shaffer Wells looks on as Dr. Raymond Broughton delivers his speech.
